

# TITLE: Creating a City

Created by: CleverBooks

**Timeframe of activity:** 45 mins

**Tags:** create with AR, urban life

**Grade Level:** K6, primary

**App/Tech Tools:** CleverBooks Create, Augmented Classroom

**Additional material:** Augmented Classroom by CleverBooks

**Learning Objectives:** learn about urban life, city zones and create own city.

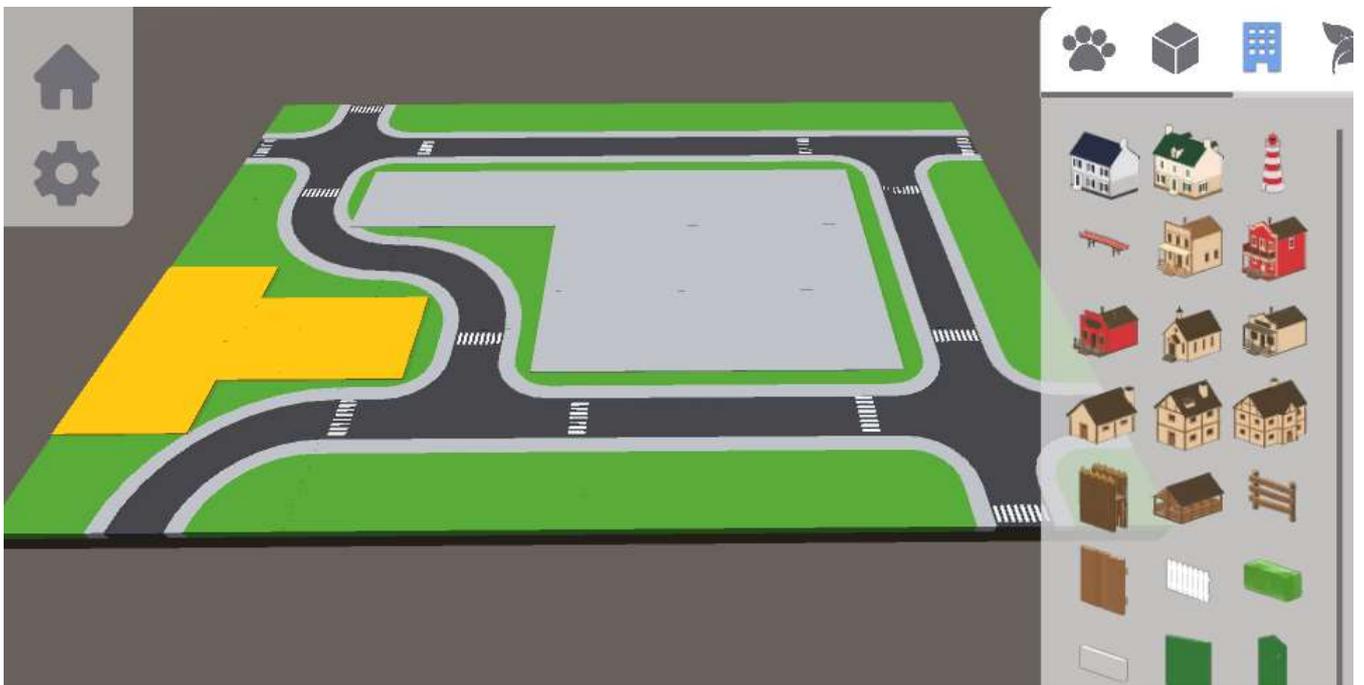

## Lesson Activity:

1. Inside cities: discussion what is a city, what can be found inside and outside a city, difference between a city and a town.
2. What would you expect to find in our towns and cities?
  - a. Zone: area set aside for certain purpose
  - b. City: place where people live, work, play and go to school
3. City planning: deciding which zones will hold offices, schools, businesses and other buildings.
4. Zones Map:

Multipurpose: zone with a mixture of schools, shops, small businesses, apartments.	
Business: office buildings, shops, banks, government buildings.	
Residential: where people live, houses and apartments are, flat complexes, townhouses, parks.	
Industrial: factories, warehouses, power plants, construction companies.	
Agricultural: farmhouses, barns, milking parlours and chicken coops.	

## Building City

This is a city infrastructure. Can you build your own with CleverBooks Create?

### Questions' outline:

What have you learnt about a city?

How will you structure your own city?
